

The Strato Rock's "little brother". Don't let the description fool you, it's crafted using the same Glass Fiber Reinforced Concrete (GFRC) construction and has the same great climbing features and durability as its big brother. Choose a variety of designs from our Net Link & Climbers (8000207 thru 8000211) to attach to the Ledge Rock Climber w/tabs.

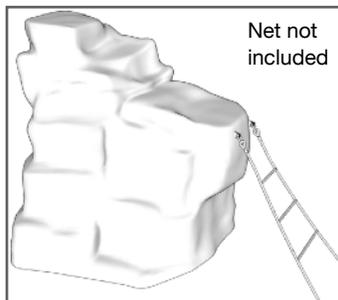

Net not included

Ledge Rock Climber w/Net Tabs (6' Side)

1000295-A

L: 6' 2" x W: 5' 6" x H: 6' 0"

3,500 LBS

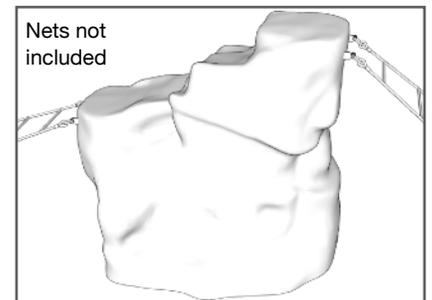

Net not included

Ledge Rock Climber w/Net Tabs (4' Side)

1000295-B

L: 6' 2" x W: 5' 6" x H: 6' 0"

3,500 LBS

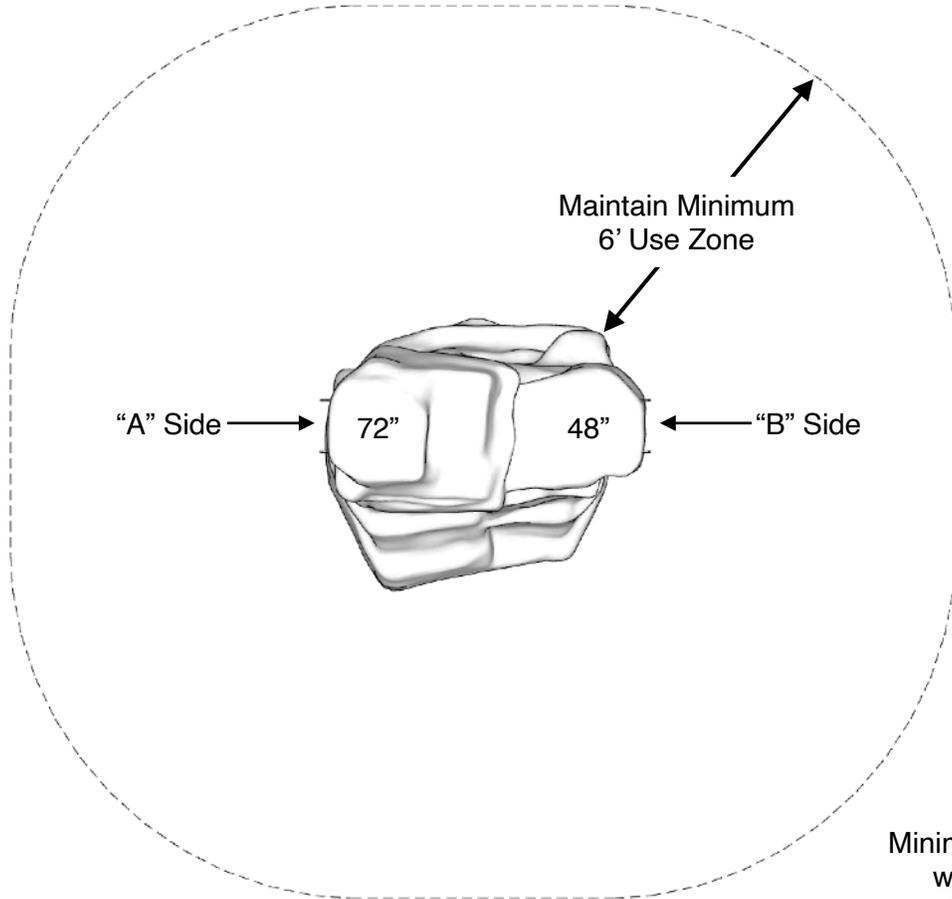

Nets not included

Ledge Rock Climber w/Net Tabs (4' & 6' Sides)

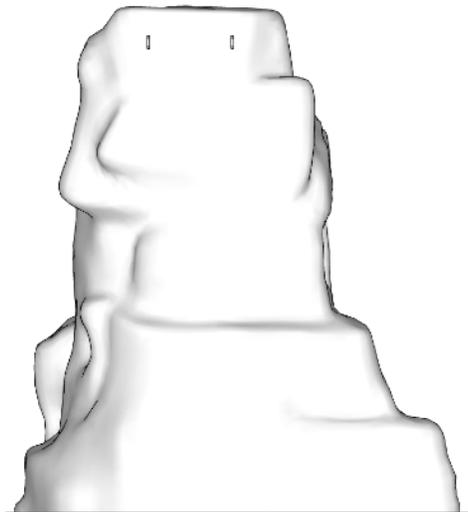

1000295-AB

L: 6' 2" x W: 5' 6" x H: 6' 0"

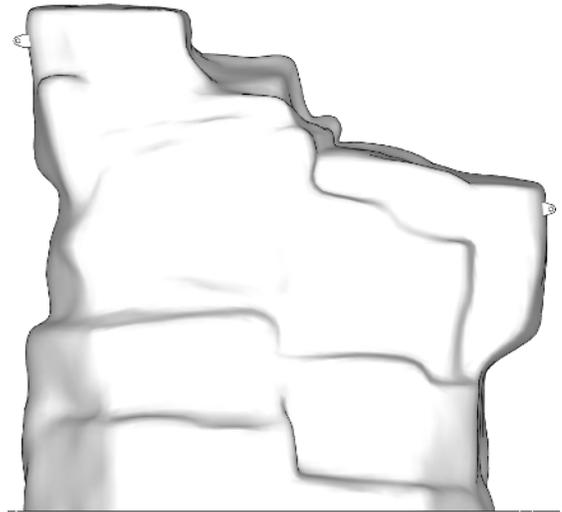

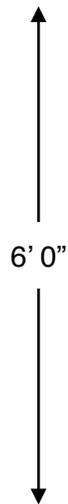

3,500 LBS

Minimum use zone,
without nets:
18' 2" x 17' 6"

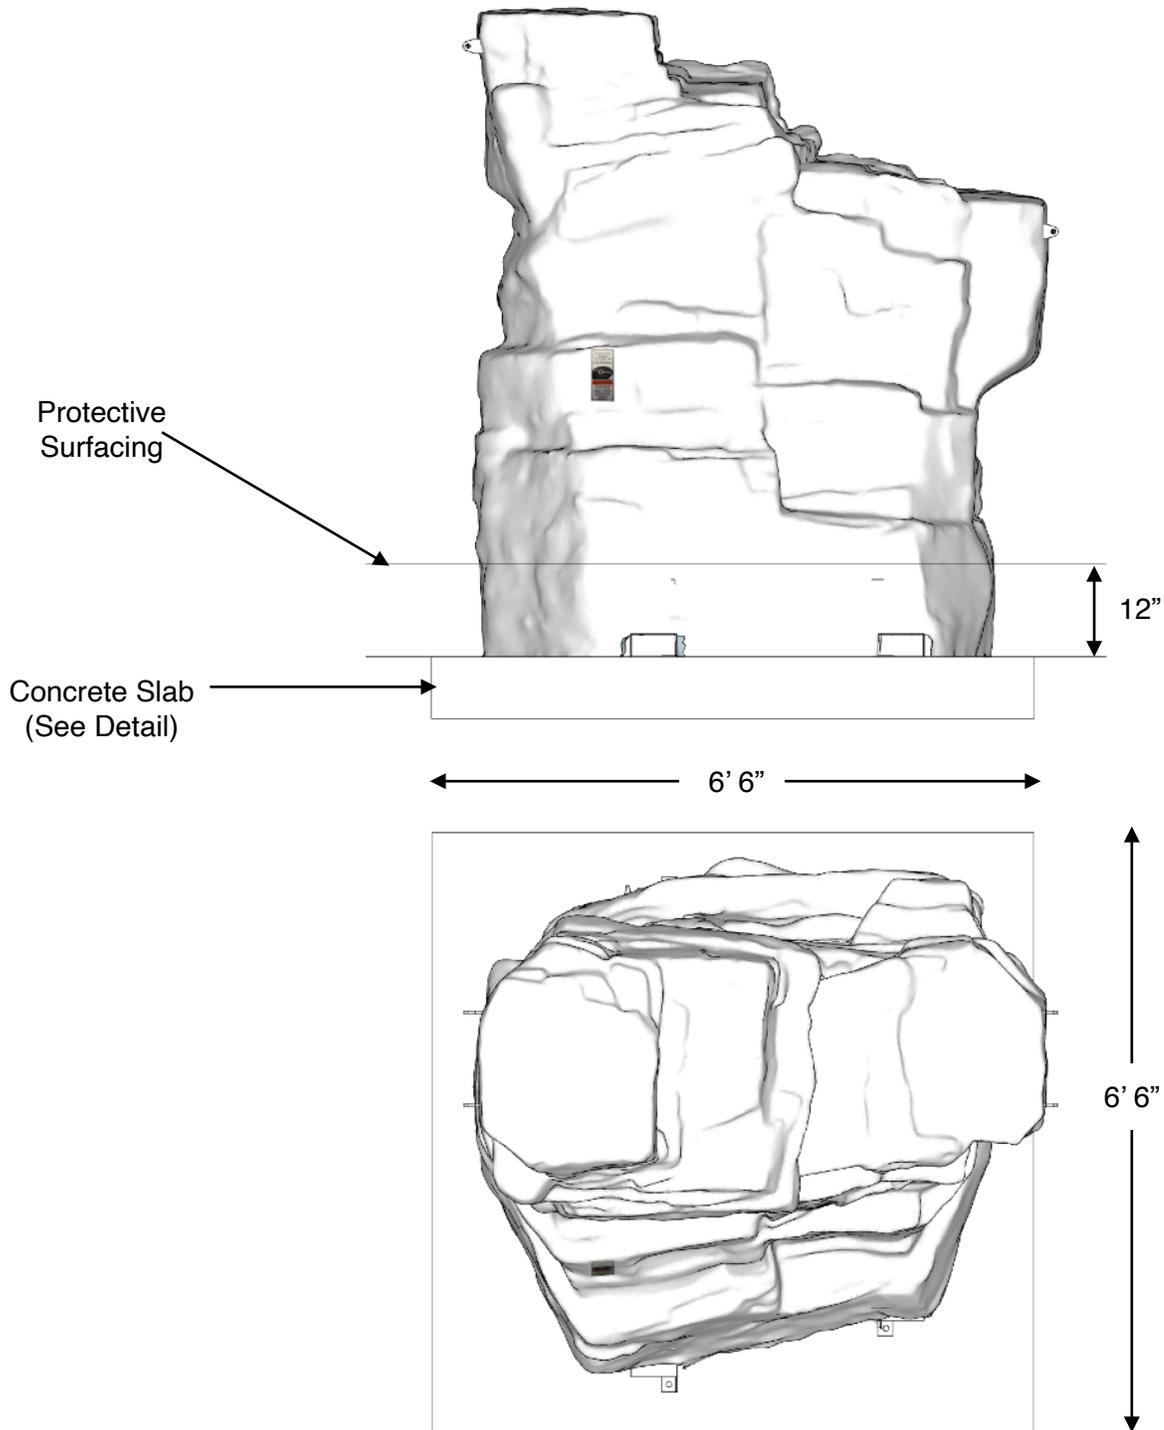

5' 6"

6' 2"

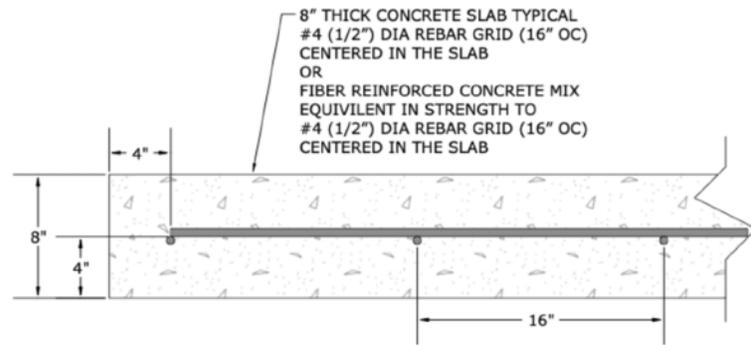

Ledge Rock Climber w/Net Tabs - 1000295-A, 1000295-B, 1000295-AB

Ledge Rock Climber w/Net Tabs - 1000295-A, 1000295-B, 1000295-AB

NOTES PRIOR TO CONSTRUCTION:

- Use appropriate equipment to lift and move the play equipment.
- Check local codes and requirements prior to digging or installing any equipment.

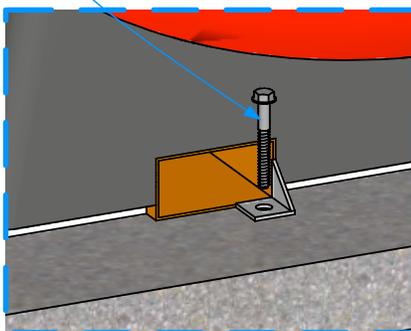

TYPICAL 8" CONCRETE SLAB DETAIL (NOT TO SCALE)
CHECK LOCAL SOIL CONDITIONS.

EXAMPLE OF COMPONENT

ANCHOR BOLT
SEE CHART

NOTE: Read installation instructions thoroughly before starting installation process.

Step 1: Lay out the area and prepare the site for install. Concrete must be installed over a solid, level base. Check local soil condition and codes. See product installation instructions for minimum use zone requirements to ensure proper spacing and adequate surfacing area.

Step 2: Pour a concrete base for the component. Refer to the typical concrete slab section in this document. The concrete should be flush with the ground level. Allow time for the concrete to completely cure before continuing.

Step 3: Using an appropriate forklift or boom, place component into final installation location. See the hardware recommendation for information on anchoring equipment down to your concrete slab. Refer to the surfacing manufacturer for installation of an approved impact attenuating play surface around the component with a minimum use zone in every direction.

Step 4: Locate your anchor bolts, supplied. Using the proper standard drill bit size noted in the installation table, drill the concrete to the appropriate hole depth through the mounting holes.

Step 5: Insert the anchor bolt into the hole and tighten until the bolt is fully seated. Do NOT over tighten the anchor bolts.

Step 6: For installation of nets, see “8000207-Net Climbers & Links-Installation Instructions”.

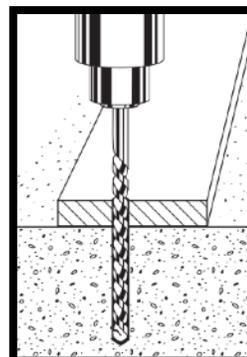

Included Items:

Item	Description	Quantity
Ledge Rock Climber w/ Net Tabs	Play Equipment	1
Anchor Bolt 5/8" x 6"	Mounting Hardware	4

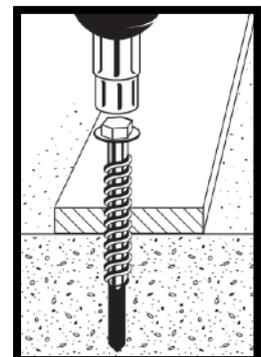

Anchor Bolt Installation:

Anchor Bolt Size	ANSI Standard Drill Bit Diameter	Anchor Head (Socket Size)	Minimum Embedment	Hole Depth
1/2" x 3"	7/16"	3/4"	2 1/2"	3 1/2"
5/8" x 4"	1/2"	13/16"	3 1/2"	4 1/2"
5/8" x 6"	1/2"	13/16"	5 1/2"	6 1/2"

Step 1: Drill

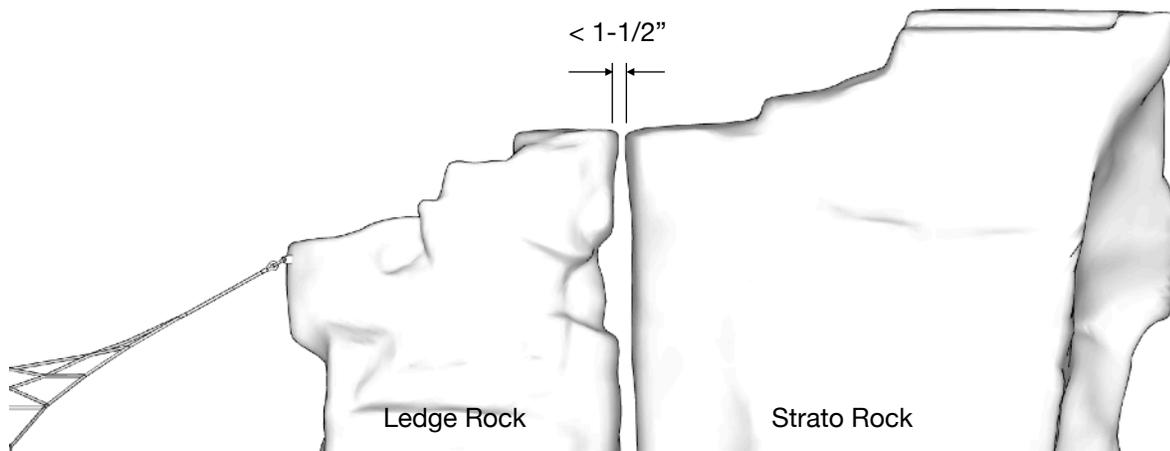

Step 2: Anchor

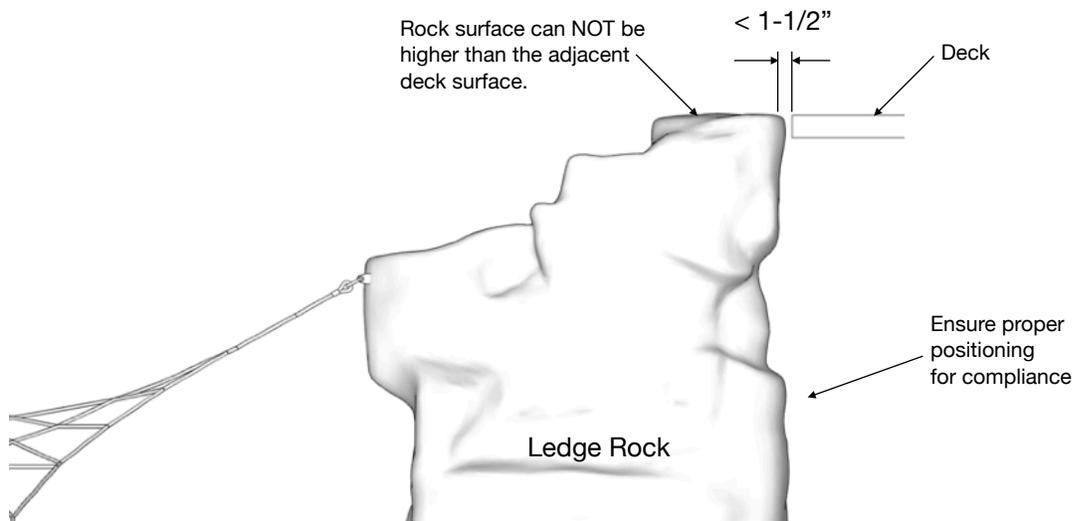

NOTE: Always wear eye protection appropriate to the task at hand.

Configured rock climber to rock climber: When the rocks are configured together, the adjacent top surfaces should be level with each other, +/- 1".

Configured rock climber to deck: When using a rock climber as a deck attachment, the rock climber surface adjacent to the deck surface should be flush with the deck surface or less (up to 1"). The adjacent rock surface should NOT be higher than the deck surface.
