Use Zone:  
15' 0" x 16' 10"

**1000293 Baseball Base Climber-31"**

**1000294 Baseball Base Climber-43"**

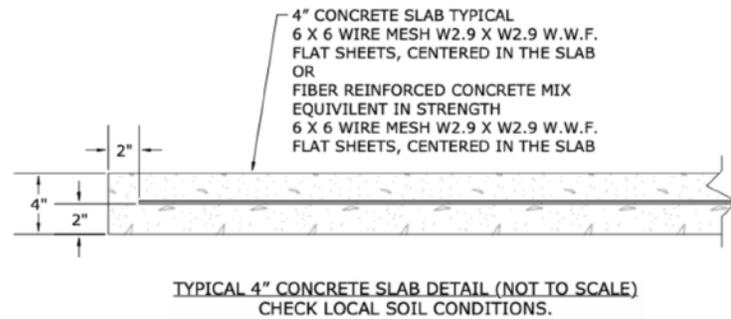

**1000293 & 1000294 Baseball Base Climber**

If you determine that less than 12" of surfacing is required, make sure the top of the concrete slab is 12" below the top of the protective surfacing.

## NOTES PRIOR TO CONSTRUCTION:

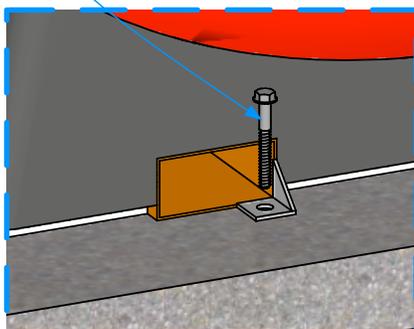

- Use appropriate equipment to lift and move the play equipment.
- Check local codes and requirements prior to digging or installing any equipment.

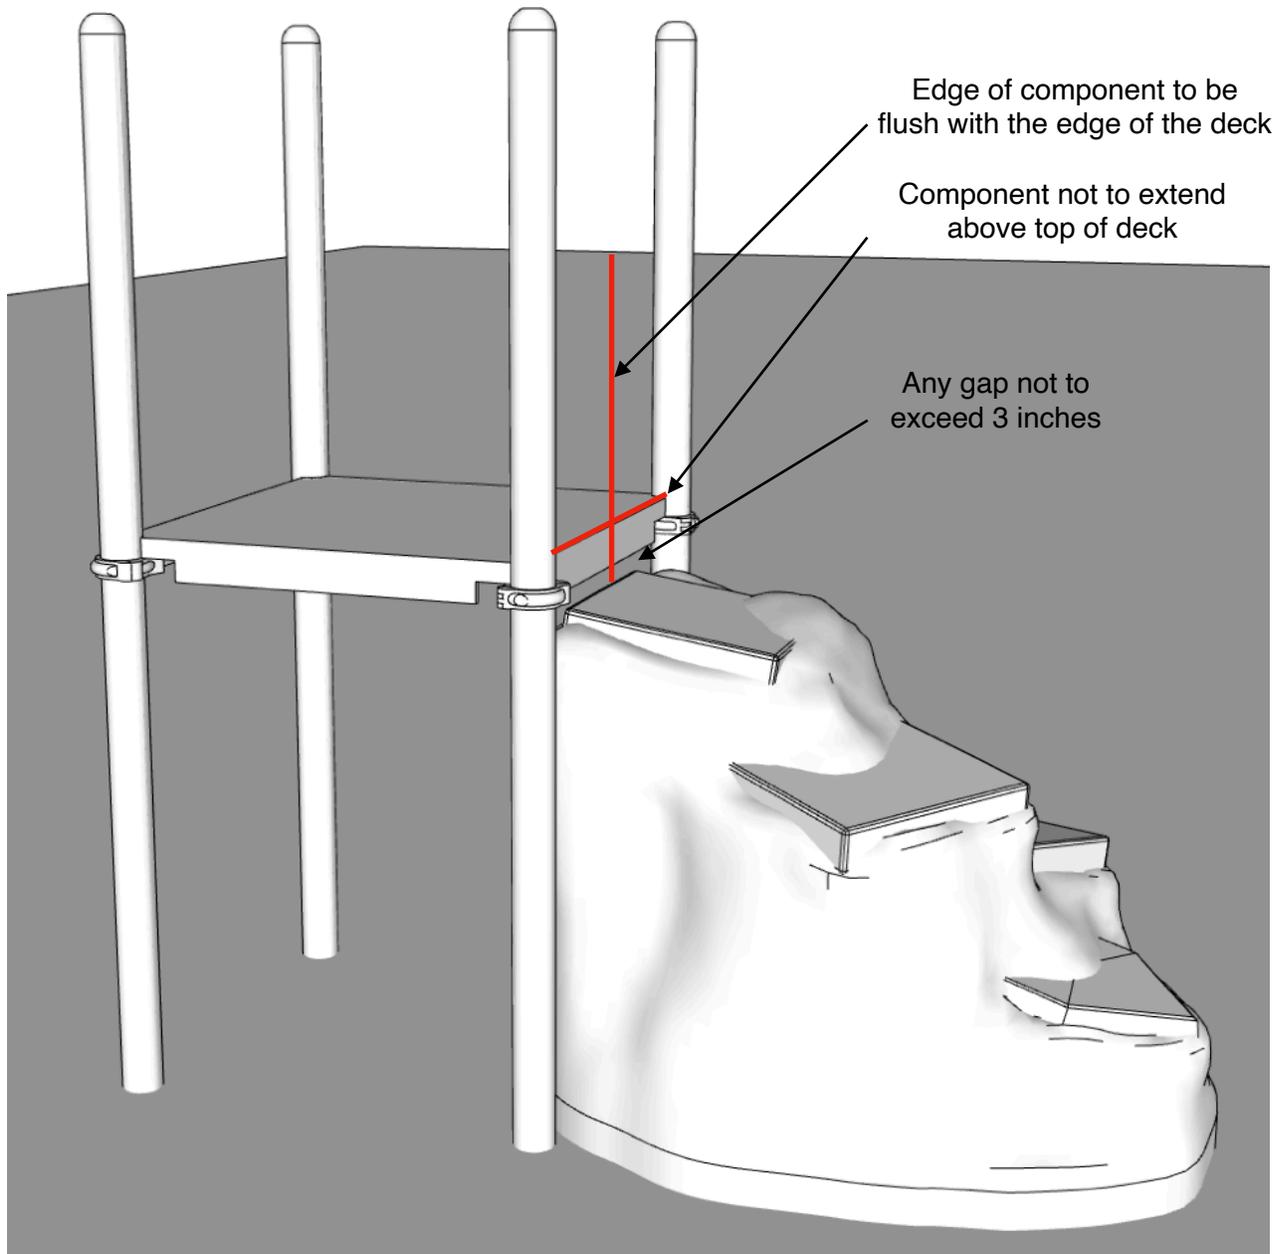

EXAMPLE OF COMPONENT

ANCHOR BOLT SEE CHART

**1000293 & 1000294 Baseball Base Climber**

**NOTE: Read installation instructions thoroughly before starting installation process.**

**Step 1:** Lay out the area and prepare the site for install. Concrete must be installed over a solid, level base. Check local soil condition and codes. See product installation instructions for minimum use zone requirements to ensure proper spacing and adequate surfacing area.

**Step 2:** Pour a concrete base for the component. Refer to the typical concrete slab section in this document. The concrete should be flush with the ground level. Allow time for the concrete to completely cure before continuing.

**Step 3:** Using an appropriate forklift or boom, place component into final installation location. See the hardware recommendation for information on anchoring equipment down to your concrete slab. Refer to the surfacing manufacturer for installation of an approved impact attenuating play surface around the component with a minimum use zone in every direction.

**Step 4:** Locate your anchor bolts, supplied. Using the proper standard drill bit size noted in the installation table, drill the concrete to the appropriate hole depth through the mounting holes.

**Step 5:** Insert the anchor bolt into the hole and tighten until the bolt is fully seated. Do NOT over tighten the anchor bolts.

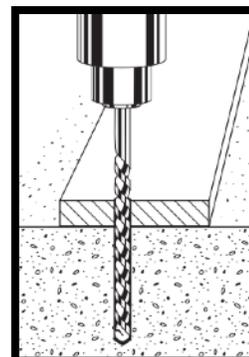

**Included Items:**

Item	Description	Quantity
Baseball Base Climber	Play Equipment	1
Anchor Bolt 1/2" x 3"	Mounting Hardware	4

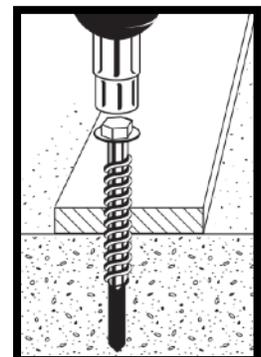

**Anchor Bolt Installation:**

Anchor Bolt Size	ANSI Standard Drill Bit Diameter	Anchor Head (Socket Size)	Minimum Embedment	Hole Depth
1/2" x 3"	7/16"	3/4"	2 1/2"	3 1/2"
5/8" x 4"	1/2"	13/16"	3 1/2"	4 1/2"
5/8" x 6"	1/2"	13/16"	5 1/2"	6 1/2"

**Step 1: Drill**

**Step 2: Anchor**

**NOTE: Always wear eye protection appropriate to the task at hand.**
